

TRIPA MH

FOUNDATION HOLES DRILLED EASILY AND CONVENIENTLY

Fast and strong. When manpower and time are scarce, and you want to work (even) smarter. Hydraulic depth adjustment for faster digging of holes for the installation of fences, poles and masts. Easy to power by tractor PTO and versatile because of interchangeable drills. Indispensable for the self-reliant farmer, contractor and builder.

Fast

Hydraulic push cylinder on heavy tubular construction

Advantageable

No nonsense drill for fast returns on investment

Economic

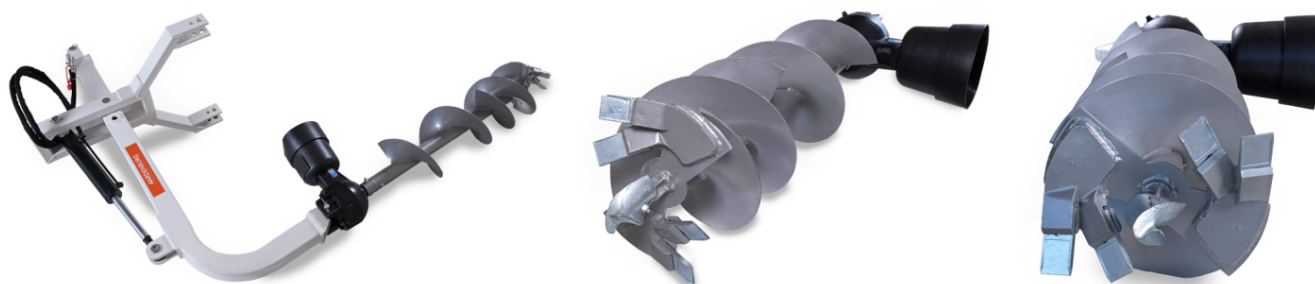

Saves time and manpower

Powerful

Ideal for large diameter drill holes transmission

Universal

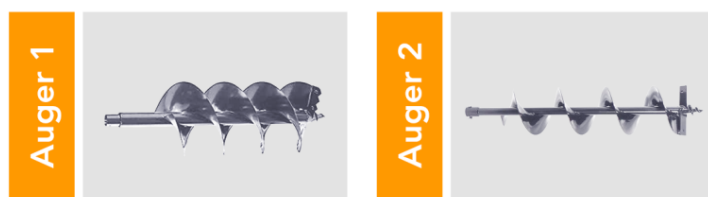

Interchangeable drill for various jobs
