

TRIPA M

FOUNDATION HOLES MADE EASY TO DRILL

Effective and strong. When manpower and time are scarce, and you want to work smarter. Timesaving digging of holes for installing fences, poles and masts. Easy to power by tractor PTO and versatile because of interchangeable drills. Indispensable for the self-reliant farmer, contractor and builder.

Stable	Advantageable	Economic	Powerful	Universal
--------	---------------	----------	----------	-----------

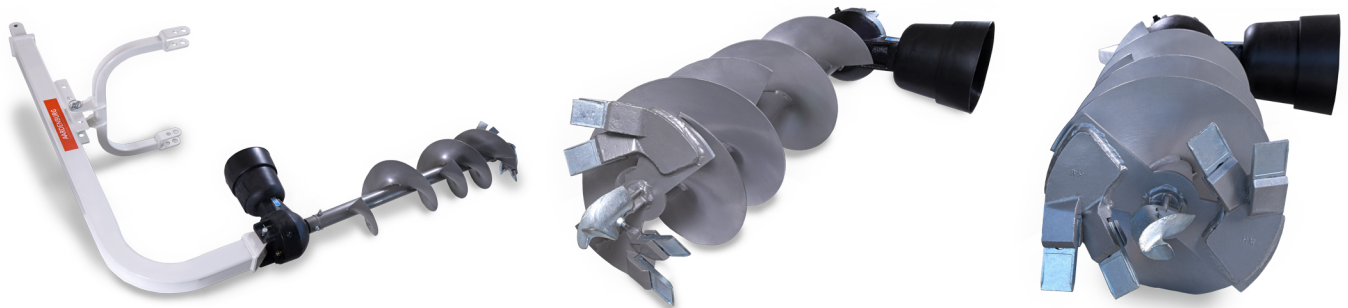

Heavy tubular construction and reinforced 3-point linkage

No nonsense drill for fast returns on investment

Saves time and manpower

Ideal for large diameter drill holes transmission

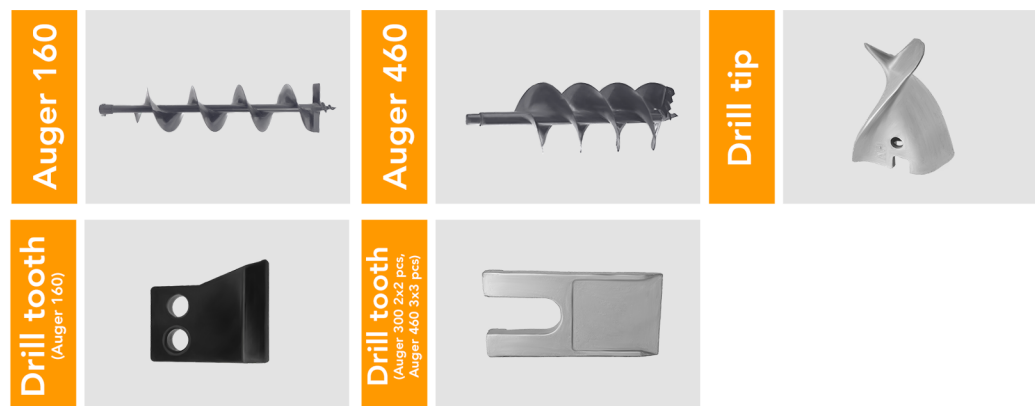

Interchangeable drill for various jobs
