

X-VATOR

BEST ALL-ROUNDER FOR YOUR EXCAVATOR

Flexible and reliable. For the excavator operator with challenging mowing tasks. Compact powerful mowing head with reversible hydraulic drive for high productivity. Parallelogram suspension for easy height control and shock absorption. Ideally suited for maintenance of ditch sides, embankments and shrubbery with excavators, mini excavators, JCBs and mounted excavators.

Flexible

Works in any position even upside down

Strong

High-capacity hydraulic motor for high impact force

Productive

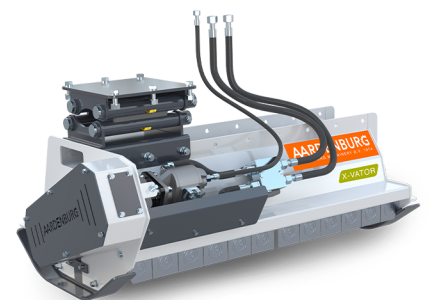

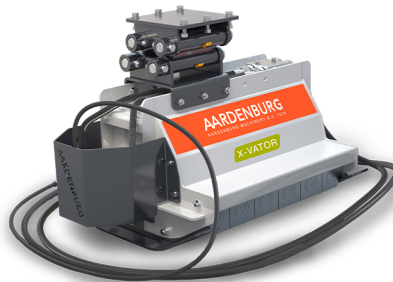

T-shaped hammers for bi-directional mowing (800/1200)

Buffer

Parallelogram suspension for quiet, low impact operation

Universal

Strong adapter mount as basis for any specialist suspension
