

ZETA M HYDRO PUSH

CLEARING AND A CLEAN CUT WITH YOUR BOBCAT

Effective and practical. For the Bobcat operator who needs to perform tough green space maintenance. Heavy-duty push bar to tip over overgrowth / shoots for smooth operation and replaceable hardened blades for even cutting. Powerful hydraulic motor and Bobcat suspension and hydraulic connectors for quick deployment. The ideal tool for company housekeeping, contractor, and municipal applications.

Smart design

Flexible suspended hardened blades with top accessible mounting bolts

Orbit

High-tech ORBIT-motor with very high torque and no leakage oil hose

Practical

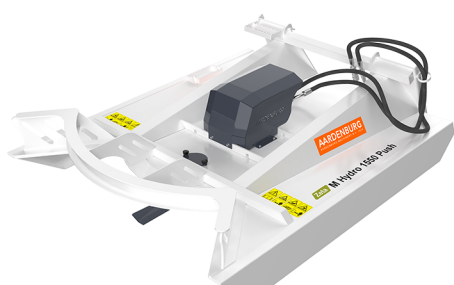

Handy steps with non-slip profile for easy access to the Bobcat

Safe

To cut more easily and for the protection of the machine

Secure

Integrated check and flow valve for overload protection
