

DELTA XL BLACK GRIZZLY

SOIL-DEEP REMOVAL OF DENSE OVERGROWTH AND HEAVY TREE TRUNKS IN FOREST PLOTS

Super heavy and powerful. For professionals who want to cultivate challenging forest plots thoroughly. Heavy solid WIDIA-hammers remove overgrowth and tree stumps up to 70 mm below the surface. The extra reinforced hydraulic tilting frame supports the feeding of large shrubs and small trees and increases productivity. Ultimately suitable for owners and those working in challenging uncultivated woodland and heavily overgrown areas.

Strong

Heavy duty double-sided XPB belt drive and automatic belt tensioners

Widia

Hardened fixed hammers on heavy-duty rotor shaft for grinding up to 70 mm deep

High speed

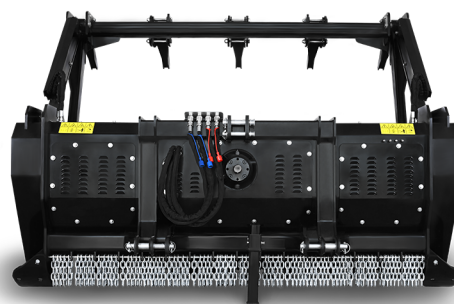

1000 RPM input and high rotor speed for speedy processing

Super heavy

Extra-reinforced housing and double walled for extreme jobs

Door

Hydraulic switching between grinding and mulching
